**Data Note:** The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

**Data Note:** The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

**Data Note:** The 1990 Census reported population by single races only. ESRI estimates the multiracial population from 1990 Census data for the total population. In the 1990 Census, "Asian" and "Pacific Islander" were not reported separately for the Hispanic Origin population. To compare the data, "Asian" and "Pacific Islander" are combined in 2000. The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups.

**Data Note:** Population Reporting Two or More Races includes unique counts of the population who reported at least two races. Population Reporting Race in Any Combination counts people who reported multiple races in each race group. For example, a person reporting "White" and "Black" is added to each group here. The Population Reporting Race Alone or in Any Combination is the sum of the Population Reporting One Race and the Population Reporting Race in Any Combination. The sum is greater than the Total Population. Percents are calculated using Total Population as the base. Detail may not sum to totals due to rounding.
